

NSRCA D7 Pattern Camp

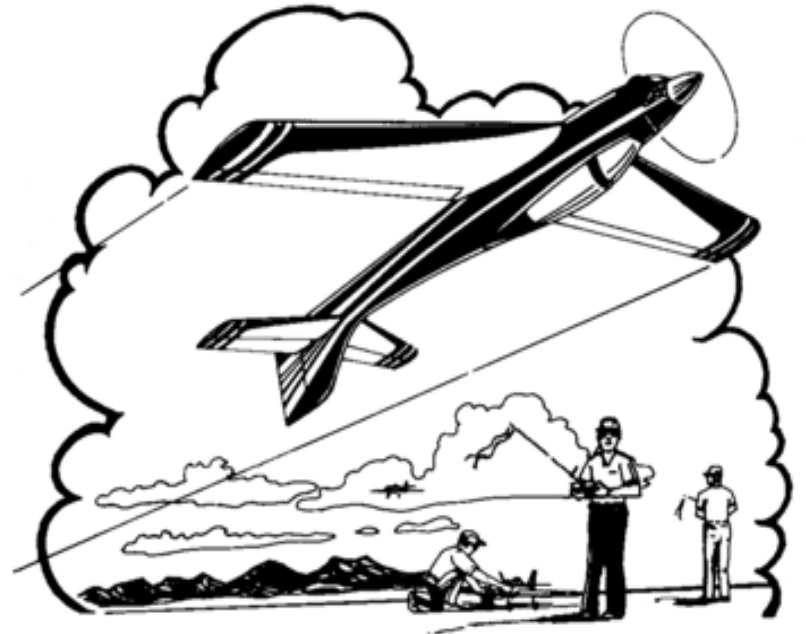

January 28, 2023

Hosted by the *Bear Mountain Flyers*

8100 Sycamore Road, Arvin CA. 93203

Mark your calendar and join us for the NSRCA D7 Pattern Camp hosted by the Bear Mountain Flyers at one of Southern California's premier flying facilities. We will have 3-4 self-contained Proton Control Systems' Pathfinder Flight Loggers available to mount in your airplane so that you can fly YOUR sequence with YOUR airplane and see YOUR data immediately after the flight. Steve Hannah and Derek Emmett will be available to help you with resolving any issues you may be having with your data logger or assist you in using our Proton Loggers if you don't have your own. Also, Jon Carter will be conducting a Judging Seminar using actual data from a flight flown in front of everyone at the beginning of the Seminar. At the conclusion of the Judging Seminar, we will resume open flying with the Pathfinder Flight Loggers.

- Event Fee: \$20
- Flight Coach Clinic: 9 AM
- AMA membership is required. Overnight RV camping is available; limited electrical hook-ups. The field will be open Friday – Sunday for anyone who wishes to stay the weekend and practice.
- Lunch on Saturday is included in the Event Fee (likely Subway sandwiches, chips, and water/sodas).
- A \$1 raffle of a data logger may be conducted (attendance not required to win with name & phone # on ticket).
- Please follow us on the [NSRCA D7 Facebook](#) webpage for late breaking information.
- Signup available on the [NSRCA D7 Events](#) webpage.
- Registration Opens: 8 AM
- Judging Seminar: 12 PM

POC: Jerry Budd
